PERPETUAL CALENDAR PUZZLE

BACKGROUND

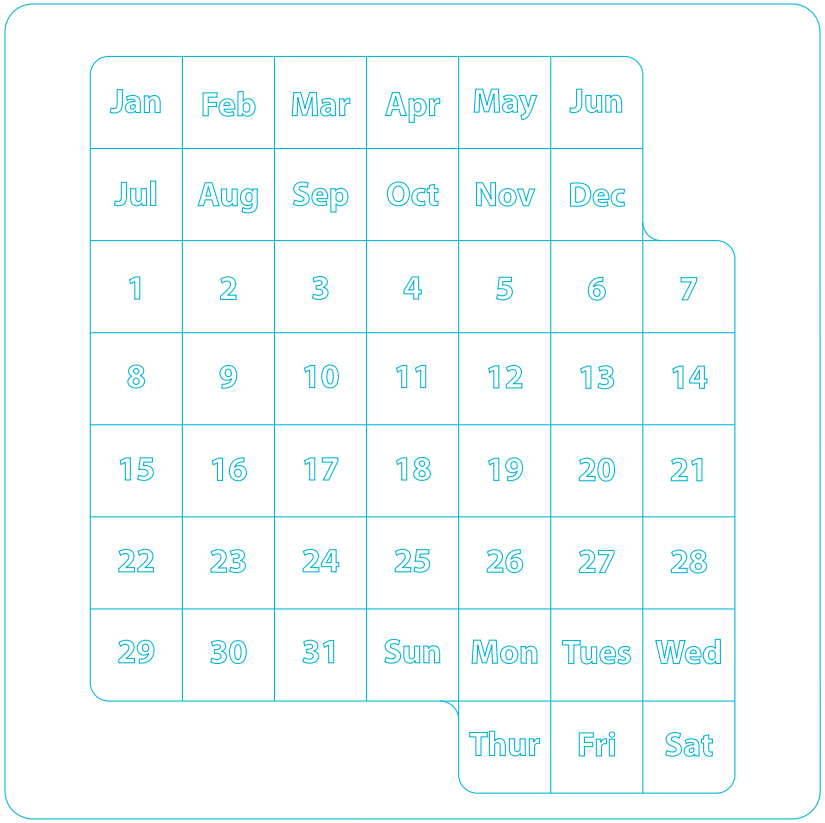

A puzzle a day! The board shows every month, every date from 1 to 31 and every day of the week. Each day, fit all ten wooden shapes onto the board so that only today's month, date and day stay uncovered. There is a new puzzle every day of the year: solve it today, then start fresh tomorrow.

PREP

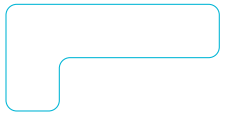

- Lay out the ten shapes (B–K) next to the board so you can see them all.
- Decorate with markers or paint. Keep the paint thin on the edges so the shapes still fit together on the board.
- Your puzzle is laser cut from natural birch plywood, so some pieces may fit a little snugger or looser than others.
- Any shape can be turned around or flipped over to fit.
- Keep the shapes unglued: they lift out, so you can solve a new date every day.

HOW TO PLAY

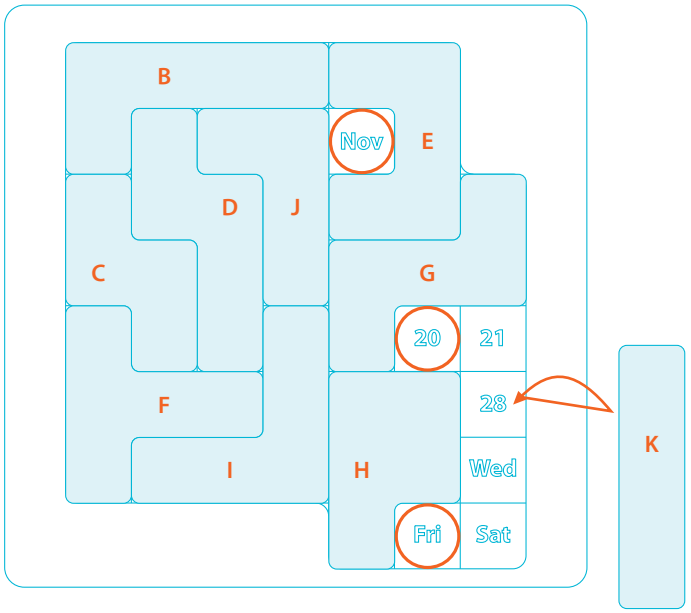

1. Find today's month, date and day of the week on the board (A).

2. Place the shapes (B–K) on the board. Turn them or flip them over to fit.

3. Use all ten shapes, so every square is covered except today's three.

4. Tomorrow, lift the shapes out and solve the new date!

TRY THESE

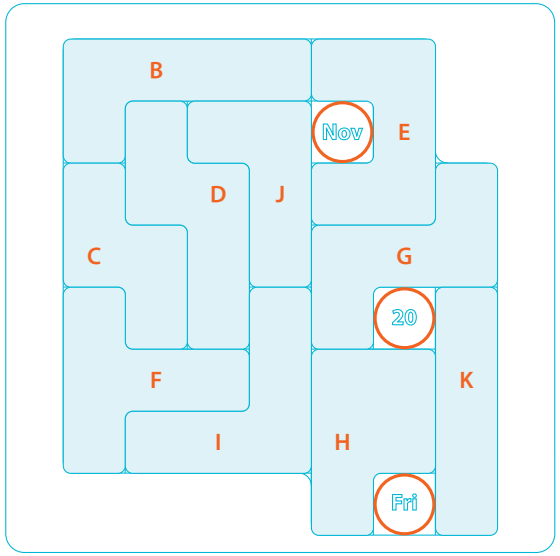

- Your birthday, on the day of the week it falls on this year
- Every day this week, without looking at the hints
- Race a friend: who solves today's date first?

STUCK?

Scan the QR code on page 1 and enter any date.
Reveal one piece at a time, or see the whole solution.

CONGRATULATIONS

YOU DID IT!

Friday, November 20
